Actual production of the documents may take somewhat longer depending upon their ease of availability and staff workload. To assist us in providing a timely response to your request, please fill out the form below and indicate the specific record/document you wish to review.

I believe i the original reason given for not providing many of the remaining records in your file were that they were not identifiable based on the search criteria I articulated,

I have now identified the records.

I city has an obligation to provide me with redacted versions of the exempt identifiable records or the particular exemption that applies to each record

More on this later but please process my public records request that i sent a few weeks ago on this.

thanks

Hello Mr. Higgins,

Your initial request asked for a voluminous amount of documents, including “Log files” from IT. A determination was made on the records that were exempt and those that were not exempt from public disclosure. You were sent all the records that were not exempt from the Public Records Act. The remaining exempt documents were not produced due to determination made by the City Attorney’s office. To state that because the Clerk’s office has maintained all of the records (exempt and not-exempt) makes those records responsive is incorrect. Once determined to be exempt (non-responsive) from disclosure, they remain exempt regardless of whether the Clerk’s office has a copy or not.

Thank you,

Records Request

Dear Records Request Officer:

I request the following identifiable records:

All records contained in the PRR-19-0031 file which the city clearly indicates below has all responsive and unresponsive records in the file.

That makes them identifiable. ☺

Thank You
Anthony Higgins
